

Sprint #3 Plan

SPLITR - 02/10/20

Goal

This sprint will implement payment features. Users will be able to select venmo users to pay and request money from.

Team Roles

- Matt Ngo {product owner, developer}
- Richard Thai {developer}
- Wai Chun Leung {developer}
- Austin Seyboldt {scrum master, developer}
- Weston Cook {developer}

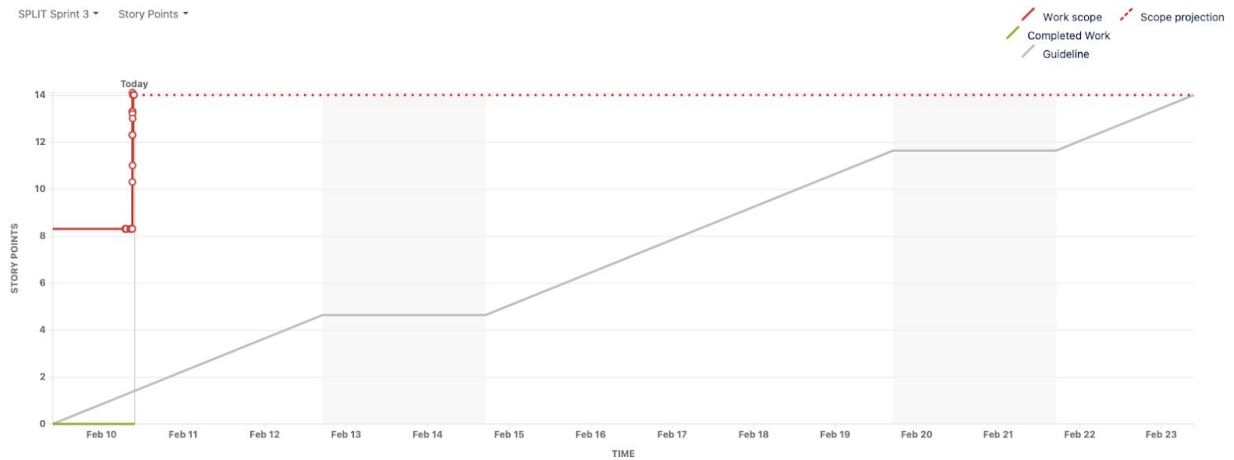

Task Listing

- As a user, I would like a payment page so that I may process my payment
 - Total: 2
- As a "payer", I want to be able to select who I want to pay so that I may complete the transaction
 - (2) Display dialog/modal to accept requester's Venmo username
 - (1) Generate Venmo payment link
 - Total: 3
- As a "payer", I would like to be able to just input a venmo username and press pay and immediately be routed to venmo to confirm the transaction so I don't need to manually switch apps
 - Total: 3
- As a "requester", I would like to be able to just input a venmo username and press request and immediately be routed to venmo to confirm the transaction so I don't need to manually switch apps
 - Total: 3
- As a user, I would like a Back Button on each page past the Homepage to be able to navigate to previous pages
 - Total: 2
- As a user, I would like to have a Delete All Button on the edit page to quickly delete all items
 - Total: 1

Initial Task Assignment

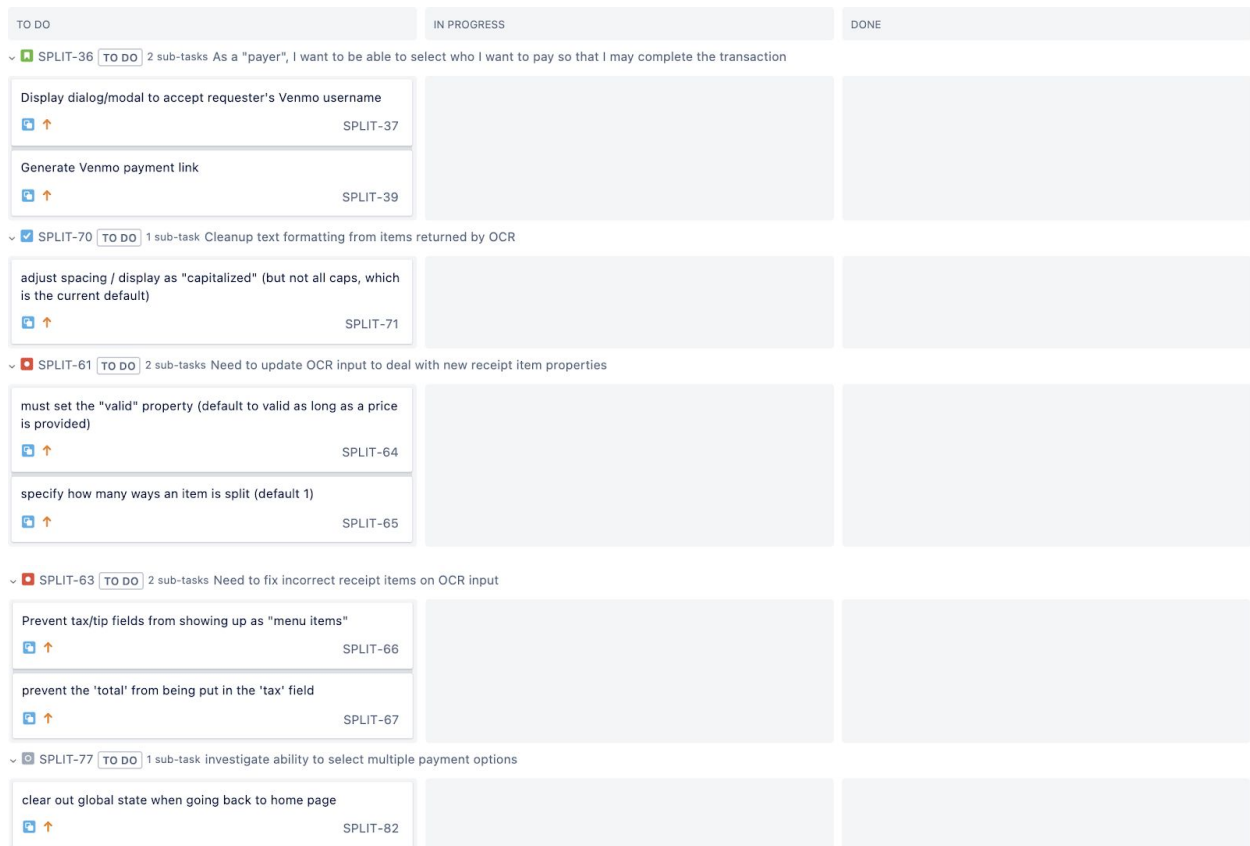

- Matt Ngo:
 - As a "payer", I would like to be able to just input a venmo username and press pay and immediately be routed to venmo to confirm the transaction so I don't need to manually switch apps
 - As a "requester", I would like to be able to just input a venmo username and press request and immediately be routed to venmo to confirm the transaction so I don't need to manually switch apps
 - Redo mockup on Figma for pay page
 - Bug: "your split" total is currently broken: not displaying any total
- Richard Thai:
 - As a "payer", I want to be able to select who I want to pay so that I may complete the transaction
 - Cleanup text formatting from items returned by OCR
 - Add logic for cycling through api keys for ocr
 - Need to update OCR input to deal with new receipt item properties
- Wai Chun Leung:
 - As a user, I would like a Back Button on each page past the Homepage to be able to navigate to previous pages
 - Separate CSS stuff from main js files
 - Spacing issues for items with a long name and/or large price
- Austin Seyboldt:
 - As a user, I would like a payment page so that I may process my payment
 - Currently using non-unique keys when mapping items with map(), may want to fix
 - Fix missing dollar sign / percent symbol for ocr input
- Weston Cook:
 - As a user, I would like to have a "Delete All" button on the edit page to quickly delete all items
 - Need to fix incorrect receipt items on OCR input
 - Look into feasibility of pre-processing receipts
 - Sign up for new API keys
